PREMIUM TUTORING & MATCHMAKING PLATFORM

OFFICIAL PRODUCT DOCUMENTATION

USER MANUAL & FUNCTIONAL DOCUMENTATION

Complete Website Usage Guide for Public Portal & Admin Operations

A comprehensive, client-ready guide documenting user roles, tuition postings, verified tutor applications, administrative request processing, automated poster exports, and system features.

APPLICATION NAME

Tutor Vista Platform

DOCUMENT VERSION

Version 2.4 (Production Release)

RELEASE DATE

September 2026

PREPARED FOR / STAKEHOLDERS

Clients, Operations, Administrators & End-Users

TARGET ENVIRONMENT

Public Portal & Administrative Dashboard

DOCUMENT CLASSIFICATION

Official Operational User Manual

CONFIDENTIALITY NOTICE: This document contains proprietary operational information for Tutor Vista. Unauthorized alteration, public distribution, or duplication without explicit authorization is strictly prohibited.

Table of Contents

This manual is divided into logical modules covering both the public portal and the operational back-office dashboard.

1. Executive Summary & Platform Architecture	Section 1
1.1 Platform Vision & Core Value Proposition	1.1
1.2 System Modules & Technology Stack	1.2
1.3 Target Audiences (Learners, Tutors, Operations)	1.3
2. User Roles & Permission Hierarchy	Section 2
2.1 Public Visitors & Guardians / Students	2.1
2.2 Registered & Verified Tutors	2.2
2.3 System Administrators & Matchmakers	2.3
3. Public Portal User Guide	Section 3
3.1 Homepage: Discovery, Categories & Live Highlights	3.1
3.2 Request Tutor Workflow: Posting Tuition Requirements	3.2
3.3 Tuition Jobs Portal: Browsing & Filtering Active Tuitions	3.3
3.4 Tutor Registration & Onboarding Application	3.4
3.5 Support Services: About Us, Founder's Message, FAQs & Contact	3.5
4. Admin Dashboard User Guide	Section 4
4.1 Administrative Login & Secure Authentication	4.1
4.2 Overview Dashboard: Key Performance Metrics & Stats	4.2
4.3 Tutor Requests Management Table	4.3
4.4 The 8 Operational Status Lifecycle Stages	4.4
4.5 Advanced Filtering: Date Presets, Divisions, Zones & Mediums	4.5
4.6 Request Details Inspection, Address Zones & Internal Notes	4.6
4.7 Data Export & Copy Functions (With & Without Contact Info)	4.7
4.8 Automated Bulk Poster / Banner Generator (6 Cards / Page)	4.8
4.9 Tutor Verification & Profile Audit Workflow	4.9
4.10 Collapsible Desktop Navigation & Responsive UI	4.10
5. Quick Reference Directory	Section 5
5.1 Comprehensive Page & Action Reference Matrix	5.1
6. Troubleshooting & Operational FAQs	Section 6
6.1 Common Inquiries & Support Handover Protocols	6.1

Navigation Tip: Every functional page documented in this manual follows a uniform 7-point structure: *Purpose, How to Access, What You See, Available Actions, Step-by-Step Usage, Expected Result, and Next Steps.*

1. Executive Summary & Platform Architecture

1.1 Platform Vision

Tutor Vista is an enterprise-grade digital education matchmaking platform designed to connect guardians and learners with certified, vetted home and online tutors across Bangladesh. The platform simplifies tutoring logistics by automating demand registration, candidate sourcing, profile validation, multi-channel marketing, and operational lifecycle tracking.

1.2 Core Architectural Modules

The system is organized into three interconnected tiers:

MODULE NAME	PRIMARY AUDIENCE	CORE CAPABILITIES
Public Client Portal Tutor-Vista-Client	Students, Guardians, Prospective Tutors, General Public	Requirement submissions, active tuition browsing, tutor onboarding registration, fee transparency, category searching, and contact channels.
Admin Dashboard tutor-vista-dashboard	Operations Managers, Administrative Officers, Matchmakers	Request verification, 8-status workflow tracking, zone categorizations, internal commenting, single/bulk info copying, automated social poster rendering, and tutor credential verification.
Backend API Service Tutor-Vista-Backend	System Services, Database Engine	Node.js/Express REST APIs, MongoDB Mongoose schema validation, dual-student parsing, dynamic filtering, authentication middleware, and DNS resolution resilience.

1.3 Target User Ecosystem

- **Guardians & Students:** Require reliable, verified tutors tailored by gender, curriculum, location, budget, and learning schedule without advance payments.
- **Qualified Tutors:** University students, school teachers, and subject specialists seeking teaching opportunities that match their location and schedule preferences.
- **Administrative Staff:** Review newly posted requests, perform background checks, assign appropriate tutors, resolve issues, and export promotional posters for marketing.

2. User Roles & Permission Hierarchy

ROLE	ACCESS METHOD	KEY PRIVILEGES	SECURITY RESTRICTIONS
Guest / Public	Direct Web URL	View active tuition opportunities, browse tutor categories, read FAQs, post tuition requests.	Cannot view student or guardian phone numbers; cannot view internal comments or pending requests.
Tutor Candidate	Tutor Application Form	Submit professional CV details, credentials, subjects, preferred areas, and availability.	Profile remains unverified until administrative audit and review.
Administrator	Secure Admin Login	Full CRUD privileges: review pending requests, update statuses, edit comments, assign zones, download posters, copy contacts.	Requires authenticated session token; activity logged for quality assurance.

3. Public Website User Guide

3.1 Homepage: Discovery & Navigation

Purpose: Serves as the primary public entry point introducing Tutor Vista's tutoring services, highlighted tutors, special bonuses, and call-to-action buttons.

How to Access: Open the root website URL (e.g., <https://www.tutorvistabd.com> or development URL).

What You See:

- Top announcement bar highlighting referral bonuses ("Refer a tutor for any tuition and get 10% referral bonus").
- Main header navigation: *Home, About Us, Request Tutor, Apply Tutor, Contact, Founder's Message*.
- Hero banner with interactive "Find a Tutor" and "Apply as Tutor" buttons.
- Curated category cards (Bangla Medium, English Medium, Madrasa, Admission Prep).
- Live counter of tutors, tuition offers, and satisfied guardians.

Available Actions: Click "Request Tutor" to post requirements; click "Apply Tutor" to register as a teacher; click "Contact" for customer care.

Expected Result: Smooth navigation to the respective specialized portal without page reloads.

Next Steps: Proceed to posting a tuition request or searching available jobs.

3.2 Request Tutor Workflow (Student & Guardian Form)

Purpose: Enables students and parents to submit tuition requirements to Tutor Vista's matching team.

How to Access: Click the blue "**Request Tutor**" button on the header or navigate directly to /request-tutor.

Figure 3.1: Public Request Tutor page showing hero illustration, student info sections, and navigation bar.

What You See:

- **Student Information:** Name, contact phone number, and gender preference.
- **Multiple Students Switch:** Allows parents to register two students under one request (Student 1 and Student 2).
- **Educational Details:** Medium (Bangla, English Medium, English Version, etc.), Class / Grade, School / Institution, and Subjects.
- **Location & Address:** Division, District, Thana, Area, and Detailed Street Address.
- **Tuition Preferences:** Salary budget (BDT), weekly teaching days (e.g., 3-5 days), and preferred tutoring time slots.

How to Use (Step-by-Step):

1. Enter the student's name and a valid 11-digit Bangladeshi mobile number.
2. Select the student's current educational Medium, Class, and required subjects.
3. (Optional) If requesting for siblings, toggle "Add Second Student" and fill in Student 2's details.
4. Select your location starting with Division, District, Thana, and Area.
5. Enter your proposed salary budget and schedule preferences.
6. Check the "I agree to terms and conditions" box and click "**Submit Request**".

Expected Result: A success toast appears stating *"Your tutor request has been submitted successfully. We will contact you within 24 hours."* The request is saved with status: "pending" in the backend database.

Next Steps: A representative from Tutor Vista calls the phone number within 24 hours to confirm the requirement and assign an instructor.

3.3 Available Tuitions (Tuition Job Portal for Tutors)

Purpose: Allows aspiring and registered tutors to view live, active tuition offers across different cities and apply for jobs.

How to Access: Click "**Apply Tutor**" or "**Tuition Requests**" from the navigation menu or navigate to /tuition-request.

What You See:

- Interactive division tabs (Dhaka, Chattogram, Sylhet, Khulna, Rajshahi, etc.).
- Filter bar: Class / Grade, Medium, Subject, and Gender preference.
- Cards grid showing active tuition jobs (Salary, Days/Week, Location, Class, Preferred Tutor Gender).
- Pagination controls (12 offers per page).

Security Safeguard: For guardian privacy, student names and exact phone numbers are automatically redacted from public view until an admin approves the application.

Available Actions: Filter by district/area; click "**Apply Now**" on any tuition card to submit an application.

3.4 Apply as Tutor (Teacher Onboarding)

Purpose: Allows professional teachers and university students to register their profile with Tutor Vista's official tutor network.

How to Access: Navigate to /apply-tutor.

Required Information: Full legal name, gender, university, degree, department, passing year, preferred tutoring areas, expected minimum salary, and available days.

Expected Result: Profile is submitted to the administrative verification queue under /tutors.

4. Admin Dashboard User Guide

4.1 Overview & System Navigation

The Admin Dashboard (tutor-vista-dashboard) is the central nerve center where operations staff track every tuition from lead generation to confirmation.

4.2 Key Performance Indicator (KPI) Overview Cards

Purpose: Provides real-time visibility into the overall tuition pipeline volume across all statuses.

Location: Displayed at the very top of the **Tutor Requests** page in a clean 4-column responsive grid (2 rows of 4 cards on desktop).

Figure 4.1: Top status statistics overview cards displaying live counts with distinct color badges and icons.

CARD METRIC	COLOR SCHEME	ICON	OPERATIONAL MEANING
TOTAL REQUESTS	Blue	Users	Total lifetime tuition requests in the database.
ACTIVE	Green	CheckCircle	Tuitions verified by admin and published live for tutors.
PENDING	Amber / Yellow	Clock	New inquiries from website waiting for first admin review.
REFERRED	Emerald / Teal	UserCheck	A tutor has been shortlisted and referred to the guardian.
CONFIRMED	Purple	CheckCircle	Tuition finalized and matching completed successfully.
DEMO	Yellow	Play	Tutor is currently conducting trial / demo classes.
PROBLEM	Orange	AlertTriangle	Tuitions flagged with schedule, salary, or guardian issues.
CANCELLED	Red	XCircle	Inquiries dropped, cancelled by guardian, or unavailable.

Auto-Refresh: Cards refresh dynamically whenever a request is created, edited, or deleted.

4.3 Tutor Requests Management Table

The core table displays filtered tuition requests with rich metadata designed for quick scanning and decision making.

COLUMN	VISUAL FORMATTING	DETAILED DESCRIPTION
STUDENT	Avatar initial + Name + Gender	Displays student's display name or offer title with gender badge below.
CONTACT	Phone numbers	Primary contact number with secondary guardian phone if provided.
CLASS & MEDIUM	Merged single cell with dual-student icon	Combines grade and medium into Grade (Medium) format. When two students exist, Student 2 is displayed on a second line preceded by a small blue Users icon .
SUBJECTS	Tag list	Shows primary 2 subjects with +N more badge if multiple subjects exist.
LOCATION	Area & District	Primary neighborhood/area with district label underneath.
STATUS	Rounded color badge	Color-coded badge representing current pipeline stage (Active, Referred, etc.).
UPDATED DATE	2-line timestamp	Date on 1st line (e.g., 16 Sep 2025 in bold slate), Time on 2nd line (e.g., 05:08 PM in gray text).
COMMENT	Truncated preview + tooltip	Shows up to 40 characters of administrative notes; hovering displays full text.
ACTIONS	Icon buttons	Copy: Copies complete tuition info with contact. View: Opens full details modal. Edit: Modifies status, zone, comment, and details. Delete: Prompts safety confirmation to delete.

4.4 Advanced Filtering System

To pinpoint specific records among thousands of tuition leads, the dashboard provides 6 synchronized filters:

Figure 4.3: Status filter dropdown matching the 6 operational workflow stages.

- **Search Bar:** Real-time debounced search matching Student Name, Phone Number, Guardian Phone, Area, and District.
- **Status Filter:** Dropdown filtering by *All Status*, *Active*, *Referred*, *Confirmed*, *Demo*, *Problem*, *Cancelled*.
- **Updated Date Filter:** Presets for *Today*, *Yesterday*, *Last 7 Days*, *Last 30 Days*, *This Month*, plus Custom Date Ranges.
- **Predefined Zones Filter:** Groups 15 key city zones under Dhaka, Chattogram, Sylhet, and Khulna.
- **Medium Filter:** Queries both primary student medium and secondary student medium using Mongoose \$or logic.
- **Clear Filters:** One-click reset restoring full database visibility.

4.5 Details Inspection, Address Zones & Internal Comments

How to Access: Click the eye icon in any table row.

Key Modal Features:

- **Complete Profile:** View both Student 1 and Student 2 institution, grade, and subject requirements.
- **Predefined Zone:** Displays the selected municipal zone inside the location details box.
- **Internal Administrative Notes:** Displays private notes entered by matchmakers with whitespace preservation.
- **Copy Buttons:** Two separate buttons: "Copy with Contact" and "Copy without Contact".

4.6 Bulk Social Media Poster Generation (6 Cards / Page)

Purpose: Automatically turns filtered tuition listings into professional, high-resolution social media marketing banners (PNG) for Facebook, Instagram, and WhatsApp marketing.

Location: Pink "**Download Banner**" button located immediately above the requests table.

Figure 4.4: Generated 6-per-page tuition marketing banner with branded gradients, offer codes, and location badges.

Operational Workflow:

1. Filter tuitions by desired division (e.g., select *Dhaka* or specific Zone).
2. Click "**Download Banner**". The button automatically indicates "*Downloading...*" with a spinner.
3. The system slices the matching records into **pages of 6 tuitions each**.
4. Each page renders off-screen with 2x scale crisp rendering and triggers sequential file downloads with a 1-second delay to bypass browser pop-up blocks.

5. Quick Reference Directory

A concise cheat-sheet mapping every primary page and its core administrative actions:

PAGE / ROUTE	PRIMARY PURPOSE	KEY AVAILABLE ACTIONS	NAVIGATION PATH
Home Portal /	Discovery & branding portal for prospective clients.	Browse highlighted tutors, read testimonials, navigate to service forms.	Top Bar Logo / Home
Request Tutor /request-tutor	Lead capture form for parents and students.	Fill multi-student details, location, subjects, budget, and submit request.	Header → Request Tutor
Tuition Jobs /tuition-request	Public job board for active teaching offers.	Filter by division, medium, class; submit teacher application.	Header → Tuition Requests
Tutor Onboarding /apply-tutor	Teacher registration and CV intake.	Submit qualifications, university, department, and contact info.	Header → Apply Tutor
Admin Dashboard / (Dashboard)	System health, quick counters, and recent activity.	Inspect high-level performance cards and quick navigational shortcuts.	Admin Sidebar → Dashboard
Tutor Requests /tutor-requests	Primary operations table for all tuition requirements.	Filter by 8 statuses, assign zones, edit comments, copy text, export posters.	Admin Sidebar → Tutor Requests
Tutors Directory /tutors	Verified tutor database and verification pipeline.	Audit uploaded CVs, verify certificates, approve/suspend tutors.	Admin Sidebar → Tutors
Messages & Inquiries /messages	Inbound contact inquiries from public website.	Read queries, mark as resolved, view visitor details.	Admin Sidebar → Messages
FAQ Management /faqs	Knowledge base editor.	Create, edit, toggle active status, and reorder public FAQs.	Admin Sidebar → FAQs
User Management /users	System staff authentication & permissions.	Add operations managers, update passwords, audit access.	Admin Sidebar → Users

6. Troubleshooting & Operational FAQs

Q: Why does a newly submitted public request not appear immediately on the public Tuition Jobs board?

A: By design, all new requests from the website enter the database with status: "pending" and isActive: false. An administrator must first inspect the request, verify the phone number, and toggle its status to **Active** in the dashboard to publish it.

Q: How do I generate posters for a specific city area?

A: Use the **Zone** filter dropdown above the table to select your target zone (e.g., *Dhanmondi, Uttara, Mirpur*). Once the table updates to show only those records, click "**Download Banner**". All generated images will contain only tuitions from that zone.

Q: Can I collapse the sidebar on desktop screens?

A: Yes. Simply click the hamburger menu icon (≡) in the top navigation bar. The sidebar will smoothly minimize into icon-only mode (64px width), providing maximum workspace for the table on smaller laptops.
